Important Messages
California is fighting climate change and so can you! Your bill includes a Climate Credit from a state program to cut carbon pollution while also reducing your energy costs. Find out how at [EnergyUpgradeCA.org/credit](#).

The gas summer Tier 1 (baseline) season begins on April 1. Your total Tier 1 quantities shown were calculated using your daily summer baseline allowance starting April 1 and your daily winter baseline allowance for any days in your billing period before April 1.

| Net Charges | | -20.61 |
| Utility Users Tax | | -2.06 |
| Energy Surcharge | | 0.00 |
| CREDITED TO NEM BALANCE | | 22.67 |

Additional Messages
MCE is a not-for-profit, public agency that sources 50-100% renewable energy for your power needs, called electric generation.

MCE continues to provide and bill for electric delivery services. MCE replaces PG&E's charge for electric generation. This is reflected in the 'Generation Credit' line item shown on the 'Details of PG&E Electric Delivery Charges' page of your bill.

Total MCE Electric Generation Charges **\$0.00**

Credited/charged to NEM Balance
A new line will be added to your billing statement indicating accrued NEM generation credits ("Credited to NEM Balance"), or spending of previously accrued NEM generation credits ("Charged to NEM Balance"). The total specified on this line indicates the amount of credit accrued/used in the current billing cycle and will be added/subtracted from the NEM Credit Balance On-Bill Message.

NEM Credit Balance On-Bill Message
This on-bill message indicates the total balance of MCE generation credits. The balance in this message will be updated each month based on your usage or accrual of credits.

BENEFITS - WHY SWITCH TO SOLAR?

www.allpremiumhome.com/solar

How Solar Works?

Solar panels convert energy from sunlight and direct current DC electricity.

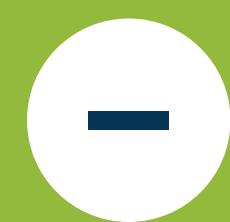

The inverter converts the DC electricity into alternating current AC for use in our homes and measure the energy produced by the solar array.

During the day energy produced from the solar panels is used in your home.

The bidirectional smart meter indicates energy usage and the excess energy produced.

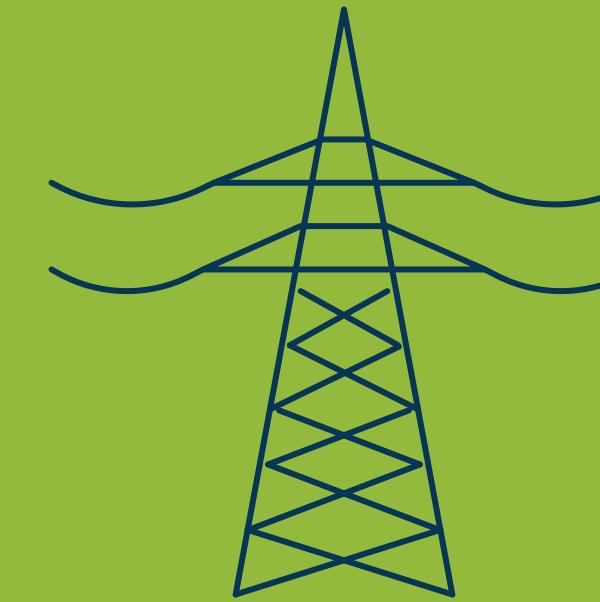

How Solar Works?

WITHDRAW CREDITS

At night when your solar panels are not producing energy, your home consumes energy from the grid.

EARN CREDITS

During the day, excess energy not used by your home goes back to the electricity grid, earning you energy credits.

About All Premium Solar

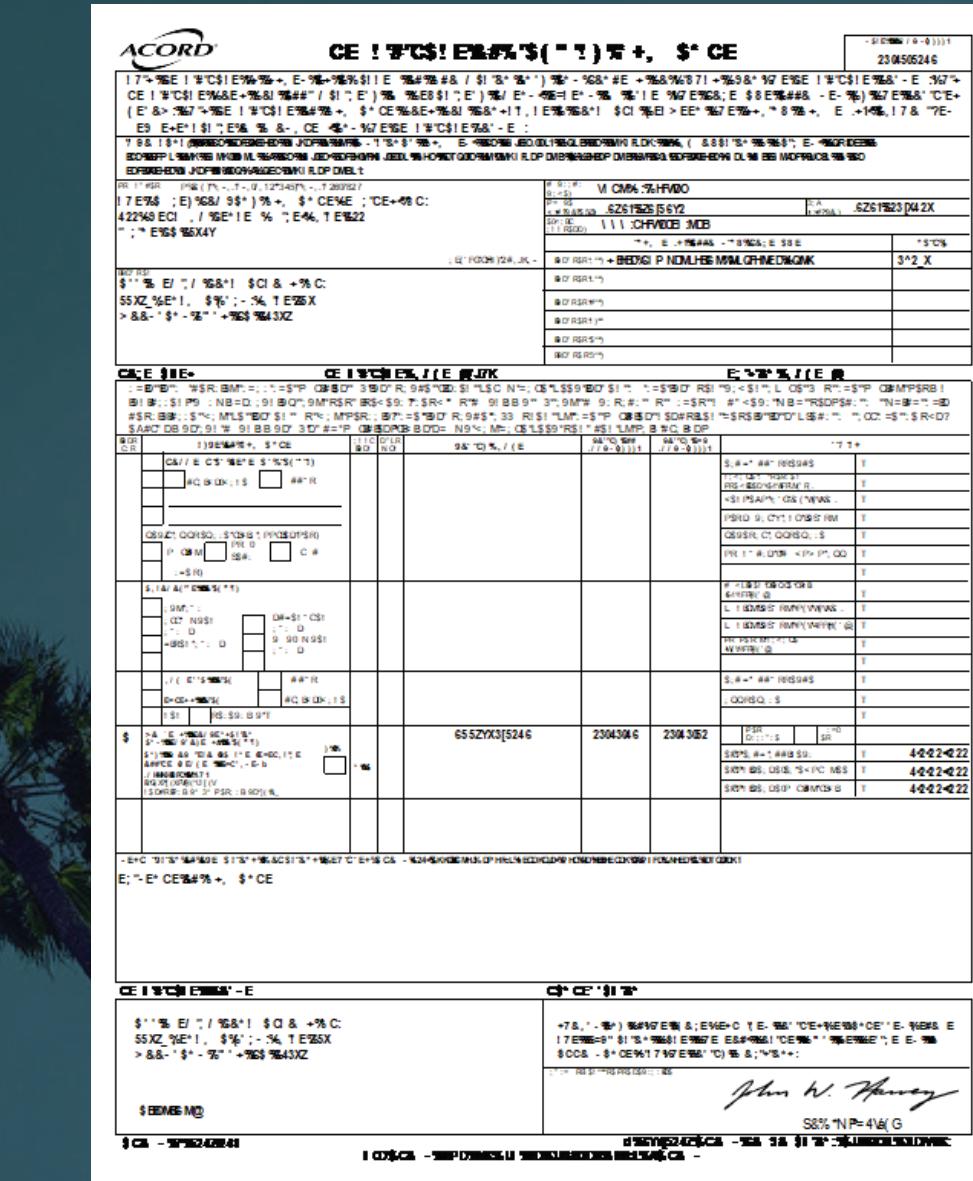

CSLB LICENSE #920361

WE HAVE PROUDLY SERVED ALL OF CALIFORNIA SINCE 2008

All Premium Contractors is dedicated to provide best quality construction and improvement service for all projects. Our success as a business is based on a simple and time proven approach.
